

Safetec is committed to providing your company with first aid components to assist in the compliance of the ANSI / ISEA Z308.1-2015 standard, intended for use in a variety of workplaces.

First Aid Kit Classifications

A

CLASS A KITS

Intended to provide basic range of products to aid most common workplace injuries such as minor cuts, abrasions and sprains.

B

CLASS B KITS

Intended to provide broader range and quantity of supplies to aid injuries in more complex or high-risk workplace environments.

OSHA 29 CFR 1910.151(b)

OSHA's 29 Code of Federal Regulations (CFR) 1910.151(b) requires that "Adequate first aid supplies shall be readily available." This rule applies to treatment of minor injuries that occur in the workplace. OSHA refers employers to ANSI Z308.1-2015 for guidance on minimum requirements for first aid kits.

ANSI / ISEA Z308.1-2015

American National Standard Minimum Requirements for Workplace First Aid Kits and Supplies Z308.1-2015 establishes minimum performance requirements for first aid kits and their supplies that are intended for use in various work environments. Classification of first aid kits, designating the assortment of items and quantity of each item, is based on the anticipated number of users intended to be served by each first aid kit, as well as the complexity of the work environment and level of hazards.
