1% Hydrocortisone Cream

Temporary Relief of Minor Skin Irritations

Stop the itch at the source with Safetec's Hydrocortisone Cream (1%), designed to temporarily relieve itching associated with minor skin irritations, inflammation, and rashes (eczema, poison ivy, and dermatitis). Trust Safetec's Hydrocortisone Cream to swiftly address redness, swelling, and itching stemming from diverse skin irritations, including insect bites. It's an essential first aid item, soothing discomfort and restoring skin comfort.

Offered in various packaging options from convenient single-use pouches, perfect for kit packers and refilling first aid kits, to our 144 ct. cartons that can be a standalone solution. This versatile packaging configuration ensures you're always equipped to swiftly and efficiently combat skin irritations while preventing cross-contamination.
