### Discovering the perfect branding solution has never been easier!

Simplify your search for customization effortlessly with our Private Label Indicator. Spot our symbol in the catalog to identify products eligible for Private Label.

Visit [www.privatelabel.safetec.com](http://www.privatelabel.safetec.com) for more information and to start your journey.

**Hello! Welcome to Safetec,** where we take pride in offering top-quality infection control, first aid, over-the-counter (OTC), and compliance products. Established in 1992, we have over 30 years of experience in manufacturing. We've made it our mission to uphold the highest quality standards, which is why we strive to be compliant with FDA and EPA regulations and maintain a UL cGMP Certification\*. Our diverse product line serves a variety of industries, providing solutions to minimize the risks of cross-contamination and meet safety guidelines, like OSHA and ANSI standards. We are committed to this mission, and we invite you to join us on this journey.

Based in Buffalo, N.Y., we operate three facilities where we oversee every aspect of manufacturing, from concept to product development through distribution. We employ over 120 dedicated professionals in the United States who work tirelessly to manufacture quality products. Whether you're seeking detailed information on our products or need a partner to bring your product to life, we are here to support you every step of the way.

At Safetec, our motto is simple:

***One Team, One Goal. Customer Driven.***

\*Management System Certified by UL with regard to 21 CFR Parts 210/211

# Three Ways To Stay Protected From Infection

Prevent infection and promote healing with our Single Antibiotic Ointment with Bacitracin, Single Antibiotic Ointment with Neomycin, or the potent Triple Antibiotic Ointment. These ointments effectively combat harmful bacteria, providing a protective layer and aiding in the swift recovery of minor cuts, burns, and scrapes. Their targeted application ensures instant relief, fostering healing while preventing infection and the spread of bacteria.

## Triple Antibiotic Ointment

Contains Bacitracin Zinc, Neomycin Sulfate, and Polymyxin-B Sulfate

*Formulated with 66.5% Ethyl Alcohol*

These individually wrapped towelettes are ideal for first aid kits, medical facilities, and various workplaces. They are formulated with 66.5% ethyl alcohol to kill germs, contain moisturizing aloe, and are free of dyes and sticky residues.

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
38401	5" x 8"	Individual Wipe	Bulk	2,000/case	17 lbs.

*ANSI Compliant Product*

## What is ANSI?

ANSI is the American National Standards Institute and sets guidelines to ensure products and services in the U.S. are safe, reliable, and of high quality. ANSI doesn't make the standards themselves but coordinates the efforts of different groups and companies to develop them. The standards help with consistency and ensure everything works well together, promoting safety and efficiency in various fields.

At Safetec, we manufacture a variety of products that comply with ANSI standards to ensure workplace safety. Our Antibiotic Ointments, Antiseptic, Burn Treatment, and Hand Sanitizer lines meet the requirements set by ANSI.

## Curious about ANSI?

**⚠ WARNING:** This product can expose you to chemicals including [cocamide diethanolamine], which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## Instant Hand Sanitizer

*Kills 99.9% of Germs*

Safetec's Instant Hand Sanitizer is the ultimate defense against germs, providing efficient protection anywhere. It fights off 99.9% of germs with a 66.5% alcohol content, which meets more than the minimum required percentage to be effective in reducing the number of bacteria on the skin, per the CDC.

### OSHA Compliance 1910.1030 – Bloodborne Pathogens Standard

Safetec's Instant Hand Sanitizer meets OSHA Bloodborne Pathogens Standard 1910.1030.

**Safetec's Hand Sanitizer contains 66.5% ethyl alcohol.** If soap and water are not available, the CDC recommends consumers use an alcohol-based hand sanitizer that contains at least 60% ethanol.

# How Much Hand Sanitizer Does Your Facility Need?

## Facts & Statistics

During an 8-hour shift, an employee should be using hand sanitizer 8 times (once per hour) on average.<sup>1</sup>

The amount of hand sanitizer used should be enough to cover all surfaces.<sup>2</sup>

In 1 oz. of hand sanitizer, you can get an average of 15 uses.<sup>3</sup>

With 260 work days in a year, assuming 8-hour days and using hand sanitizer every hour, an employee would **use hand sanitizer 2,080 times, which is equivalent to 138 oz. of hand sanitizer.**

Amount of People/ Facility Size	Ounces of Hand Sanitizer	# of 8 oz. Hand Sanitizer Bottles Reorder No. 17371	# of 16 oz. Hand Sanitizer Bottles Reorder No. 17354
1	138	18	9
250	34,500	4,313	2,156
500	69,000	8,625	4,313

# How Much Hand Soap Does Your Facility Need?

## Facts & Statistics

The average person uses the bathroom 6-7 times a day<sup>4</sup>, using two pumps or 0.7 mL (0.023 oz.) of soap with every hand washing.

The amount of soap used should be enough to scrub and lather all areas of your hands.<sup>5</sup>

In 1 oz. of soap, you can get an average of 42 uses.

With 260 work days in a year, assuming the bathroom is used 7 times a day and 0.7 mL of soap is used every time, an employee would **use soap 1,820 times, which is equivalent to 43 oz. of soap.**

Amount of People/ Facility Size	Ounces of Hand Soap	# of 16 oz. Hand Soap Bottles Reorder No. 34452	# of 1 Gallon (128 oz.) Hand Soap Bottles Reorder No. 34455
1	43	3	1
250	10,750	672	84
500	21,500	1,344	168

<sup>1</sup> Prudential recommends sanitizing your hands once per hour at work.

<sup>2</sup> According to the CDC's hand sanitizer guidelines and recommendations.

<sup>3</sup> According to Purell, there are 29-30 uses in a 2 oz. bottle when used properly. This is about 15 uses per oz.

<sup>4</sup> According to OSHA Outreach Courses.

<sup>5</sup> According to the CDC's hand hygiene FAQ.

# Instant Hand Sanitizer: Which is Right for You?

Safetec's Instant Hand Sanitizer meets OSHA Bloodborne Pathogens Standard 1910.1030.

**ANSI Minimum Requirements for Workplace First Aid Kits & Supplies Z308.1-2021 Standard**  
Safetec's Instant Hand Sanitizer also meets the ANSI/ISEA Z308.1-2021 Standard, which establishes minimum performance requirements for first aid kits and their supplies that are intended for use in various work environments.

**Safetec's Instant Hand Sanitizer contains 66.5% ethyl alcohol.**  
If soap and water are not available, the CDC recommends consumers use an alcohol-based hand sanitizer that contains at least 60% ethanol.

**Safetec offers Instant Hand Sanitizer in both spray and gel configurations, providing efficient protection on-the-go or in your facility or place of business. Which one fits your lifestyle best?**

- Gel is perfect for places with high traffic and high touch areas
- Gel can be easily worked into hard-to-reach areas, like between fingers, ensuring complete coverage
- “No touch” spray application prevents cross-contamination especially before injury care
- Spray is perfect on-the-go and is a convenient option for children who may have difficulty applying gel evenly

With 0.005 oz. (0.15 mL) dispensed per spray and assuming a person sprays their hands 4 times to cover all surfaces thoroughly, you can get 100 uses per 2 oz. spray bottle, compared to a 2 oz. gel bottle with 29-30 uses.

Type of Hand Sanitizer	Average Amount Dispensed Per Use	Number of Uses Per 2 oz. (60 mL) Bottle	Cost Per Use in a 2 oz. (60 mL) Bottle
Spray	0.02 oz. (0.6 mL)	100	\$0.02 (\$2.25 per bottle)
Gel	0.06 oz. (2 mL)	29-30	\$0.03 (\$1 per bottle)

## Red Z® and Green-Z® Fluid Control Solidifiers

Safetec's Red Z® and Green-Z® solidifiers embody our safety commitment, swiftly containing and solidifying hazardous\* spills into a semi-solid (gel) mass. Red Z® handles blood and body fluids, while Green-Z® performs identical functions in addition to chemical spills because there is no chlorine. These solidifiers are user-friendly, eco-conscious, and trusted across industries, and they ensure exceptional performance and regulatory compliance. Available in single & multi-use bottles, single-use pouches, drop-in pacs, and buckets.

- Contains super absorbent polymers (SAPs)
- Eliminates splashing and aerosolization
- Easy-to-use
- Fast-acting
- For potentially infectious blood, body fluid, or chemical spills.\*\*\*
- Helps comply with DOT regulations†
- Shelf-stable in a cool, dry place\*\*

**Deodorizes**

**Chlorine-Free**

\*\*Products are shelf-stable and do not require an expiration date. For the product to remain shelf-stable, it must be kept in a cool, dry place and in its original packaging. If contents are hard/compact, shake the product to loosen before use.

\*\*\* Careful consideration should be given to chemical spill cleanup, i.e., room size, temperature, quantity and concentration(s) of the solution(s).

\*Dispose of potentially infectious materials in accordance with all local, state and federal regulations.

†Visit our website for a full list of regulation references.

## Zorb Sheets

### Blood, Body, & Chemical Fluid Absorbents

Transfer specimens safely and easily using Safetec's Zorb Sheets! These versatile sheets help reduce compliance risks associated with the handling and shipping of diagnostic specimens, infectious substances, hazardous materials and dangerous goods. The tissue-based material allows fluid to immediately activate the superabsorbent polymers to solidify and transform the contents into a semi-solid (gel) mass. Safetec's Zorb Sheets—your reliable choice for safe transportation that helps comply with DOT, CDC, OSHA, IATA, ICAO, USPS, and UN regulations.†

- Available in multiple sizes
- Fast-acting
- Easy-to-use
- Lightweight
- Space saving
- Prevents leaking

# Spill Kits

<b>EZ-Cleans Plus® Kit .....</b>	<b>30</b>
<b>EZ-Personal Protection Kit .....</b>	<b>31</b>
<b>Formaldehyde Spill Kit .....</b>	<b>32</b>
<b>Hazardous Drugs Spill Kit .....</b>	<b>32</b>
<b>Multi-Purpose Spill Kit .....</b>	<b>33</b>
<b>National Standard EZ-Cleans® Kit .....</b>	<b>30</b>
<b>Spill Leader Kit .....</b>	<b>33</b>
<b>Universal Precaution Compliance Kit .....</b>	<b>31</b>
<b>Spill Kit Extras .....</b>	<b>34</b>
<b>Which Spill Kit is Right for You? .....</b>	<b>35</b>

## EZ-Cleans Plus® Kit

The EZ-Cleans Plus® Kit is designed for addressing blood and body fluid spills, and provides essential personal protection items. Its focus on encapsulating and containing potentially infectious spills not only ensures a safer cleanup process but also minimizes the risk of employee exposure to infectious waste and cross-contamination. Each component of the kit is disposable for convenience.

This kit includes Red Z® Solidifier, a quick and efficient solution for solidifying blood and body fluids while eliminating odors.

### What's included:

- 10 g Red Z® Solidifier
- Instructions
- Pair of Vinyl Gloves
- Paper Towel
- p.a.w.s.® Antimicrobial Hand Wipe
- Red Biohazard Bag (24" x 24")
- SaniZide Pro 1® Wipe
- Scoop/Scraper
- Twist Tie

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
17120	Plastic Bag	1" x 6.19" x 9.75"	24/case	5 lbs.
17121	Poly Bag	1" x 6.19" x 9.75"	24/case	5 lbs.

17120 does not contain a SaniZide Pro 1® wipe.

**Blood and Body Fluid Spill Response**

**Single-Use**

## National Standard EZ-Cleans® Kit

Specifically tailored for the cleanup of blood and body fluid spills, the National Standard EZ-Cleans® Kit is a cost-effective alternative for workers who do not require full face and body protection. Compact and easy to use, all kit components are disposable.

This kit includes Red Z® Solidifier, a quick and efficient solution for solidifying blood and body fluids while eliminating odors.

### What's included:

- 10 g Red Z® Solidifier
- Instructions
- Odor Mask
- Pair of Vinyl Gloves
- p.a.w.s.® Antimicrobial Hand Wipe
- Red Biohazard Bag (24" x 24")
- SaniZide Pro 1® Wipe
- Scoop/Scraper
- 2 Twist Ties
- White Disposal Bag

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
25000	Refill	1" x 6.19" x 9.75"	24/case	7 lbs.
25005	Hard Case	2.63" x 6.5" x 8.12"	12/case	10 lbs.
25006	Metal Case	2.5" x 5" x 8"	24/case	44 lbs.

**Blood and Body Fluid Spill Response**

**Single-Use**

## Universal Precaution Compliance Kit

This kit is crucial due to the health risks associated with bloodborne pathogens like HBV, HCV, and HIV. It adheres to OSHA, CDC, and State Health Department standards, providing the necessary personal protection and cleanup tools. Perfect for a multitude of workplaces, including nursing homes, hospitals, schools, correctional facilities, and any business where job-related contact with blood is a potential risk.

This kit includes Red Z<sup>®</sup> Solidifier, a quick and efficient solution for solidifying blood and body fluids while eliminating odors.

### What's included:

- 10 g Red Z<sup>®</sup> Solidifier
- Combo Mask/Safety Shield
- Identification Tag
- Instructions
- Pair of Vinyl Gloves
- p.a.w.s.<sup>®</sup> Antimicrobial Hand Wipe
- Protective Apron
- Red Biohazard Bag (24" x 24")
- SaniZide Pro 1<sup>®</sup> Wipe
- Scoop/Scraper
- Twist Tie

**Blood and Body Fluid Spill Response**

**Single-Use**

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
17100	Poly Bag	1" x 6.19" x 9.75"	24/case	6 lbs.
17102	Hard Case	2.63" x 6.5" x 8.12"	12/case	10 lbs.

## EZ-Personal Protection Kit

This fully disposable kit offers comprehensive exposure protection against potentially infectious blood and body fluids. Designed for pandemic and infection control, this kit comprises a well-organized selection of personal protective equipment (PPE) to address potential exposure to infectious materials. Compact and easily storable, this kit can be safely disposed of after use, ensuring the highest safety and hygiene standards.

This kit includes Red Z<sup>®</sup> Solidifier, a quick and efficient solution for solidifying blood and body fluids while eliminating odors.

### What's included:

- Combo Mask/Safety Shield
- Instructions
- Pair of Vinyl Gloves
- p.a.w.s.<sup>®</sup> Antimicrobial Hand Wipe
- Protective Gown
- Red Biohazard Bag (24" x 24")
- Twist Tie

**Blood and Body Fluid Spill Response**

**Single-Use**

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
17606	Plastic Bag	1" x 6.19" x 9.75"	24/case	10 lbs.

## Formaldehyde Spill Response Kit

A convenient emergency response kit for medical personnel using formalin or other formaldehyde-containing substances. It is ideal for containing small-volume spills.

This kit includes FSC 1, a formalin spill control solidifier that aids in reducing the exposure to formaldehyde gas by immobilizing formalin and transforming it to an easily removable semi-solid mass.

*Please Note: Not recommended to be used with 40% formalin or higher.*

### What's included:

- 4 Clear Disposal Bags (30" x 36")
- FSC 1 Spill Control (11 oz. Solidifier)
- Instructions
- Open Back Gown
- Pair of Nitrile Gloves
- Respirator
- 4 Scoop/Scrapers
- 4 Twist Ties
- Vented Goggles
- 3 Wiper Pads (11" x 11")

**Chemical Spill Response**

**Single-Use**

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
48625	Poly Bag	11.75" x 11.75" x 4.88"	1/case	4 lbs.
48630	Hard Case	14" x 12.625" x 5.375"	1/case	6 lbs.

## Hazardous Drugs Spill Kit

In environments where meticulous precautions are paramount like compounding pharmacies and healthcare facilities handling Hazardous Drugs (HDs), such as cytotoxic drugs, Safetec's Hazardous Drugs Spill Kit serves as the primary defense against unexpected spills and exposures.

*Any facility that handles HDs must have USP <800> compliant spill kits on-site. This requirement is part of USP General Chapter 800 and is an effort to protect workers and patients in the event of accidental spills of HDs.*

### What's included:

- 21 g Green-Z® Fluid Solidifier
- Caution Sign
- Chemotherapy Gown
- Full-Face Safety Shield
- Identification Tag
- Instruction Card
- Nitrile Chemotherapy Gloves
- Scoop & Scraper
- Shoe Covers, Non-Slip
- Twist Tie
- 2 Wiper Pads (11" x 11")
- Yellow Chemotherapy Waste Bag (20" x 13" x 39")

**Chemical Spill Response**

**Single-Use**

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
49725	Plastic Bag	2" x 8" x 14"	12/case	11 lbs.

## Multi-Purpose Spill Kit

This comprehensive kit is your go-to solution for quick and efficient response to a variety of spills. Whether it's chemicals, body fluids, or other hazardous substances, this kit equips you with the essential tools for safe spill cleanup. Compact and easily accessible, it's ideal for a range of environments, from laboratories to workplaces.

*Meets requirements for compliance with DOT 1713 hazardous discharge; EPA 623.30 immediate action and 263.31 discharge cleanup.*

### What's included:

- Acid Lock Solidifier (15 oz. Bottle)
- Alky Solidifier (15 oz. Bottle)
- Green-Z® Solidifier (15 oz. Bottle)
- Petro Lock Absorbent (8 oz. Solidifier)
- Caution Tape Roll
- 3 Clear Disposal Bags (30" x 37")
- D.O.T. Incident Report Tag
- Drop Cloth
- Instructions
- Pair of Nitrile Gloves
- Respirator
- 3 Scoop/Scrapers
- 3 Twist Ties
- Vented Goggles
- Zammie® Sewer Stopper (15" x 21")

Universal Spill Response

Multi-Use

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
15201	Poly Bag	12" x 17.75" x 4.25"	1/case	11 lbs.

## Spill Leader Kit

This wall-mounted spill kit is designed for emergency response and hazardous lab spills. The solid solutions neutralize, stabilize, and solidify a variety of aqueous spills wherever they occur.

*Meets requirements for compliance with DOT 1713 hazardous discharge; EPA 623.30 immediate action and 263.31 discharge cleanup.*

### What's included:

- Adhesive Wall Mount
- Acid Lock Solidifier (5 oz. Bottle)
- Alky Solidifier (5 oz. Bottle)
- Green-Z® Solidifier (5 oz. Bottle)
- Petro Lock Absorbent (2 oz. Solidifier)
- Red Z® Solidifier (5 oz. Bottle)
- D.O.T. Incident Report Tag
- 2 Hazardous Waste D.O.T. Labels
- 3 pairs of Nitrile Gloves
- 2 Non-Hazardous Waste D.O.T. Labels
- 6 Scoop/Scrapers
- 6 Zip Lock Bags (9" x 12")

Universal Spill Response

Multi-Use

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
15205	Poly Bag	14.125" x 3.125" x 20.5"	1/case	5 lbs.

# Spill Kit Extras

Elevate your spill control preparedness by having extra items on hand.

## Clean Up Essentials

Ensure you are ready for unexpected accidents by maintaining a surplus of essential cleanup supplies like these.

Order No.	Description	Dimensions	Case Qty.	Case Wt.
17170	Scoop/Scraper	-	300/case	8 lbs.
2110122	Red Biohazard Bag	24" x 24"	500/case	16 lbs.
2110105	Red Biohazard Bag	33" x 39"	150/case	12 lbs.
2110014	Poly-Lined Paper Bag (Vomit)	3.25" x 4.75" x 9"	1,000/case	36.5 lbs.

## Clean and Disinfect

After taking care of spills, cleaning and disinfecting contaminated areas and maintaining personal hygiene are important.

Order No.	Description	Size	Case Qty.	Case Wt.
13377	Instant Hand Sanitizer 0.9 g Pouch	144 ct.	12/case	7 lbs.
34400B	p.a.w.s.® Antimicrobial Hand Wipe	Bulk	5,000/case	42 lbs.
34810	SaniZide Plus® Germicidal Solution Spray Bottle	32 oz.	6/case	15 lbs.
35910	SaniZide Pro 1® Surface Disinfectant Spray Bottle	32 oz.	6/case	14 lbs.
34452	SaniWash® Antimicrobial Hand Wash	16 oz.	12/case	16 lbs.

## Zorb Sheets

You never know when you may need additional absorption to control a spill. Stock up on Zorb Sheets to be prepared for the unexpected.

Order No.	Description	Bags	Case Qty.	Case Wt.
44001	S/S Zorb Sheets, Standard Absorbency, 3" x 3"	1,000 ct.	20/case	26 lbs.
44002	S/S Zorb Sheets, Standard Absorbency, 12" x 12"	-	500/case	11 lbs.
44003	S/S Zorb Sheets, Standard Absorbency, 6" x 6"	500 ct.	5/case	13 lbs.
44004	S/S Zorb Sheets, Standard Absorbency, 3" x 6"	500 ct.	5/case	7 lbs.

For other available sizes, see Page 28.

## Fluid Solidifiers

You can't always anticipate the size of a spill; make sure to have extra solidifier in case your spill is larger than your kit's solidifying abilities.

Order No.	Description	Size	Case Qty.	Case Wt.
41103	Red Z® Shaker Top Bottle	15 oz.	12/case	15 lbs.
41116	Red Z® Bucket	17.5 lbs.	1/case	22 lbs.
41220	Red Z® Drum	50 lbs.	1/case	55 lbs.
42012	Green-Z® Shaker Top Bottle	15 oz.	12/case	15 lbs.
42200	Green-Z® Drum	50 lbs.	1/case	55 lbs.
41100	Speedy Cleanz® Shaker Top Bottle	16 oz.	12/case	16 lbs.
47101	FSC 1 Formalin Spill Control Shaker Top Bottle	11 oz.	12/case	11 lbs.
12003	Acid Lock® Shaker Top Bottle	15 oz.	12/case	14 lbs.
13003	Alky® Shaker Top Bottle	15 oz.	12/case	14 lbs.
14103	Petro Lock Shaker Top Bottle	8 oz.	12/case	10 lbs.

42200 is Made to Order.

For other available sizes of Red Z® and Green-Z®, see Pages 25-26.

The Occupational Safety and Health Administration's (OSHA) role is to assure America's workers' safety and health by setting and enforcing standards, providing training, outreach, and education, establishing partnerships, and encouraging continual process improvement in workplace safety and health. OSHA sets standards, or rules, that describe the methods that employers must use to protect their employees from hazards.

At Safetec of America, we can offer you the resources and products needed to keep your workplace safe and OSHA-compliant.

# 5 Steps to Efficiently Contain and Remove Bloodborne Pathogen Spills

## 29 CFR 1910.1030 – Bloodborne Pathogens

Universal Precautions is an approach to infection control. According to the concept of Universal Precautions, all human blood and certain human body fluids are treated as if known to be infectious for HIV, HBV, and other bloodborne pathogens.

### Step 1: Prevent

To prevent direct contact with the spill during the cleanup process and minimize the risk of infection, disposable protective clothing must be worn. This includes gloves, combo mask/safety shield, and a protective apron.

### Step 4: Dispose

Discard the germicidal wipe, gloves, safety shield and apron into the **red biohazard bag** and dispose of it according to local, state, and federal regulations.

### Step 2: Contain & Remove

To efficiently contain and remove the spill, a **solidifying agent** (Safetec Red Z®) and a **scoop/scraper** are to be used. The spill contents are to be disposed of into a **red biohazard bag**.

### Step 5: Sanitize

Use an **antimicrobial hand wipe** (p.a.w.s.®) to sanitize hands, then use **soap** (SaniWash®) and water once the spill is contained and cleaned.

### Step 3: Disinfect

To properly disinfect the contaminated surface area, use a **surface disinfectant wipe** (SaniZide Pro 1®). This step is critical for preventing further contamination.

#### Helpful Tips to Remain OSHA Compliant

- Think safety culture – not just compliance
- Compliance is the key to prevention
- Do not guess information or make assumptions
- Plan and prepare for an inspection ahead of time

For more information on OSHA 1910.1030 compliance, [visit our website](#).

# Protect against exposure to bloodborne pathogens.

## 29 CFR 1910.1030 – Bloodborne Pathogens

Universal Precautions is an approach to infection control. According to the concept of Universal Precautions, all human blood and certain human body fluids are treated as if known to be infectious for HIV, HBV, and other bloodborne pathogens.

Following OSHA 29 CFR 1910.1030 is vital for protecting employees from serious health risks, ensuring legal compliance, fostering a safe work environment, and minimizing financial and legal liabilities for employers.

Under this compliance standard, when there is occupational exposure to blood and body fluids, employers are required to provide appropriate, readily accessible personal protective equipment (PPE) at no cost to employees. This PPE must prevent blood or other infectious materials from reaching employees' skin, clothes, eyes, mouth, or mucous membranes during normal use. Contaminated work surfaces must be decontaminated with an appropriate disinfectant after a spill cleanup. Additionally, a means to sanitize hands and other skin must be available, such as antiseptic wipes and soap.

Adhering to these standards not only promotes workplace safety but also helps prevent the transmission of infectious diseases.

*With just one kit, the Universal Precaution Kit can help you remain compliant with the OSHA 29 CFR 1910.1030 Bloodborne Pathogens Standard.*

**Safetec can help!**

## Universal Precaution Compliance Kit

This kit is crucial due to the health risks associated with bloodborne pathogens like HBV, HCV, and HIV. It adheres to OSHA, CDC, and State Health Department standards, providing the necessary personal protection and cleanup tools.

Suitable for various workplaces, such as nursing homes, hospitals, schools, correctional facilities, and any business where job-related contact with blood is a potential risk.

This kit includes Red Z<sup>®</sup> Solidifier, a quick and efficient solution for solidifying blood and body fluids while eliminating odors.

### What's included:

- 10 g Red Z<sup>®</sup> Solidifier
- Combo Mask/Safety Shield
- Identification Tag
- Instructions
- Pair of Vinyl Gloves
- p.a.w.s.<sup>®</sup> Antimicrobial Hand Wipe
- Protective Apron
- Red Biohazard Bag (24" x 24")
- SaniZide Pro 1<sup>®</sup> Wipe
- Scoop/Scraper
- Twist Tie

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
17100	Poly Bag	1" x 6.19" x 9.75"	24/case	6 lbs.
17102	Hard Case	2.63" x 6.5" x 8.12"	12/case	10 lbs.

# Make Any Safetec Kit OSHA Compliant with

## EZ-Personal Protection Kit

Combine this PPE bundle with any regular blood and body fluid kit to elevate it to OSHA Bloodborne Pathogen Compliance Standards. This portable, compact kit is perfect for having multiple on hand to handle the unexpected.

### What's included:

# 1-Step 1-Minute

## SaniZide Pro 1<sup>®</sup> Surface Disinfectant

1-Minute Surface Disinfectant Spray and Wipes

SaniZide Pro 1<sup>®</sup> is a broad-spectrum, EPA-registered surface disinfectant that combines cleaning and disinfecting in one simple step with its ready-to-use, alcohol-based, hospital-grade formula. SaniZide Pro 1<sup>®</sup> makes disinfecting even easier by reducing the risk of cross-contamination with true, one-minute kill claims that are effective against 48 microorganisms and safe for repeated use on hard, non-porous surfaces.

**Effective against MRSA, VRE, Tuberculosis,  
Influenza, Poliovirus, Norovirus, Monkeypox,  
& SARS-CoV-2 (the virus that causes COVID-19)**

### Ideal for use in:

- Ambulances
- Ambulatory Surgical Centers
- Animal Care Facilities
- Bathrooms
- High Touch Surfaces
- Hospitals
- Laboratories
- Medical or Dental Offices
- Nursing Homes
- Other Healthcare Related Institutions
- Office Buildings
- Public Spaces
- Salons
- Veterinary Offices

ANSI Supplemental Product

**⚠ WARNING:** SaniZide Pro 1<sup>®</sup> contains Ethanol (CAS 64-17-5) as a disinfectant, which in California is considered to be carcinogenic to humans when ingested in the form of an alcoholic beverage [IARC 1]. SaniZide Pro 1<sup>®</sup> also contains the following ingredients which do not appear on any listing of chemicals of concern as designated by the State of California or the European Union: Purified Water (CAS 7732-18-5) as a diluent, Propylene Glycol (CAS 57-55-6) as a solvent, Citric Acid (CAS 77-92-9) as a pH adjuster, Decyl Glucoside (CAS 68515-73-1) as a surfactant, Didecyltrimonium Chloride (CAS 7173-51-5) as a disinfectant, Lauryl Glucoside (CAS 110615-47-9) as a surfactant.

## SaniZide Plus<sup>®</sup> Germicidal Solution

*Kills 99% of Bacteria #*

SaniZide Plus<sup>®</sup> is a one-step<sup>\*1</sup> germicidal cleaner and deodorant designed for general cleaning, disinfecting and controlling non-pathogenic mold and mildew on hard, non-porous inanimate surfaces. Quickly removes dirt, grime, non-pathogenic mold and mildew, food residue, blood and other organic matter commonly found in health care facilities. It also eliminates odors leaving hard non-porous surfaces smelling clean and fresh. Use where odors are a problem. This product is effective against 48 microorganisms on hard, non-porous surfaces.

*1 "One Step" disinfectant claim is limited to association with non-food contact surface use.*

*\* when used according to disinfection directions*

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.

# We Manufacture National Brand Equivalents

## What is a National Brand Equivalent?

National Brand Equivalent (NBE) products are designed to match the quality, performance, and effectiveness of the most recognized national brands.

## Why pay for the name when Safetec delivers the same?

At Safetec of America, we don't just manufacture in the USA — we formulate, test, and package everything right here in our Buffalo-based facilities. Our in-house chemistry, quality, and product development teams work diligently to ensure our products meet or exceed the performance of national brands, giving you a competitive edge without their price tag. Plus, many of our products are available for private labeling, making it easy to deliver trusted, American-made quality under your brand.

## Industry Brand Equivalents

- Burn Gel vs. Burnshield® Emergency Burn Care Hydrogel
- Device Wipe vs. PDI® Easy Screen® Cleaning Wipes
- First Aid Ointments vs. Globe® First Aid Ointments
- Instant Hand Sanitizer Spray vs. Metrex VioNexus™ Spray
- p.a.w.s.® Antimicrobial Hand Wipe vs. PDI® Sani-Hands®
- SaniWash® Antimicrobial Hand Soap vs. Metrex VioNexus™ Soap
- SaniZide Plus® Wipe vs. PDI® Sani-Cloth® AF3 Wipe
- SaniZide Pro 1® Spray vs. Metrex® CaviCide1™

## Retail Brand Equivalents

- Antiseptic Spray vs. Bactine® MAX Spray
- Burn Relief Spray vs. Solarcaine® Burn Relief Spray
- Instant Hand Sanitizer vs. Purell® Hand Sanitizer
- Hydrocortisone Cream vs. Cortizone-10® Maximum Strength
- p.a.w.s.® Antimicrobial Hand Wipe vs. Wet Ones® Wipe
- Pain Relief Spray vs. Biofreeze® Pain Relief Spray
- SaniWash® Antimicrobial Soap vs. Dial® Antibacterial Soap
- Triple Antibiotic Ointment vs. Neosporin® Ointment
- SaniZide Pro 1® Wipe vs. Clorox® Wipe
