Instant Hand Sanitizer Spray

Kills 99.9% of Germs

Safetec's Instant Hand Sanitizer Spray is the ultimate defense against germs, providing efficient protection on-the-go or in your facility or place of business. It kills 99.9% of germs with a 66.5% alcohol content, which meets more than the minimum required percentage to be effective in reducing the number of bacteria on the skin, per the CDC.

The 2 oz. and 4 oz.* spray formulas offer an easy application for clean, germ-free hands, with a quick drying time and leaves no sticky residue. Perfect for employees, healthcare workers, and first responders on-the-go, or packing and refilling first aid kits and safety kits.

Ideal for use in:

- Backpacks
- Desk Drawers
- First Aid Kits
- Gym Bags
- Healthcare Facilities
- Office Spaces
- Promotional Bags
- Purses
- Safety Kits
- Schools
- Travel Kits

FAQs About Instant Hand Sanitizer Spray

Frequently Asked Questions

Where is Instant Hand Sanitizer Spray manufactured?

Instant Hand Sanitizer Spray is manufactured **in the U.S.A., at our headquarters in Buffalo, New York.**

What is the alcohol content of your hand sanitizer?

Safetec Instant Hand Sanitizer Spray **contains 66.5% ethyl alcohol, which meets the [Centers for Disease Control and Prevention \(CDC\)](#) recommendation** to use a hand sanitizer with at least 60% alcohol in the absence of soap and water. **Hand sanitizers with at least 60% alcohol are more effective against a wider range of germs** than hand sanitizers without alcohol, such as those containing benzalkonium chloride (BZK).

What standards does Instant Hand Sanitizer Spray comply with?

Proper hand hygiene remains a key compliance requirement for OSHA, CDC, and infection control protocols in healthcare, education, and workplace settings.

Safetec's Instant Hand Sanitizer Spray **meets the [Occupational Safety and Health Administration \(OSHA\) Compliance Bloodborne Pathogens Standard 1910.1030](#) and the CDC handwashing recommendations** in the absence of soap and water. According to OSHA, when handwashing is not possible, there should be an antiseptic hand cleanser or antiseptic towelette available.

Instant Hand Sanitizer Spray **[meets the ANSI/ISEA Z308.1-2021 Standard](#)**, which establishes minimum performance requirements for first aid kits and their supplies that are intended for use in various work environments.

Is your hand sanitizer flammable?

Yes, the formula contains ethyl alcohol and therefore **is flammable**. Please keep away from flame.

What are the benefits of Instant Hand Sanitizer Spray?

- Formulated with aloe vera to keep your skin nourished with each use
- Contains a fresh scent to leave hands smelling pleasant throughout the day
- Eliminates 99.9% of germs
- Dries quickly and leaves no sticky residue
- Formulated without phthalates, sulfates, and dyes
- Free from animal-derived ingredients
- No touch spray application, reducing cross-contamination especially when cleaning before injury care
- Lightweight and portable to take it on-the-go
- Ideal for packing or refilling first aid and safety kits
- The 2 oz. spray meets the TSA requirements for allowable liquids in carry-on luggage

Is private labeling available?

Yes, the 2 oz. and 4 oz. sprays are available for private labeling and are great as a promotional product for your brand. As a full-service contract manufacturer, our **formulations and packaging options are customizable**.
