NumStat®

Antiseptic & Pain Relieving Prep Pad

Experience fast, skin numbing relief and cleansing in one with NumStat® Antiseptic & Pain Relieving Prep Pads. Developed by doctors, these innovative, prescription free wipes combine a powerful dual-action anesthetic and antiseptic to cleanse skin, kill germs, and relieve pain for any procedure involving needle sticks or injections, or for the at-home treatment of minor cuts, scrapes, burns, and stings.

Formulated with 15% Benzocaine and 1% Menthol, NumStat® helps numb the skin in as little as 60 seconds, delivering quick pain relief for children ages 2+ and adults. At the same time, 71% Isopropyl Alcohol cleanses the area to reduce the risk of infection—making each pad a reliable choice for any injection, blood draw, or skin procedure. They are perfect for clinics, at home care, drugstores, and more!

Offered in latex-free and individually packaged, these wipes provide convenience, safety, and on-the-go readiness. They are available in bulk or a 50 ct. carton.
