A Message from our President and CEO, Scott A. Weinstein.

Safetec of America was born on January 1, 1992, in Buffalo, New York. Since our inception, we have been unwavering in our commitment to producing top-quality, American-made products. But more than that, we've been dedicated to the city we love, where we ensure our manufacturing operations exceed the highest standards of quality and safety.

Along our journey, we've encountered major health challenges like the AIDS epidemic, the swine flu, and most recently, the COVID-19 pandemic. Products like our flagship, Red Z®, were born out of challenges like these to protect people and stop the spread of disease.

We also wouldn't be where we are today without our team - the heart of Safetec. Many of our employees have been with us for many years, building strong relationships along the way. We value their dedication and hard work, and we strive to create an environment where everyone can be themselves. When people visit us, they always say, "Everyone is so nice—you've got a great culture!" And that's something we're proud of. We enjoy what we do, and it shows in how we work together.

We put our customers first and work hard to make it easy to work with us, and we take pride in doing what we say we'll do. We ship on time, and we stay true to our word. Safetec embodies the spirit of Buffalo—the "City of Good Neighbors"—and we bring that same neighborly care to our customers every day.

We are grateful for the trust you have placed in us, and we look forward to continuing our partnership for many years to come.

Sincerely,

Scott A. Weinstein
President and CEO, Safetec of America

Hello! Welcome to Safetec, where we take pride in offering top-quality infection control, first aid, over-the-counter (OTC), and compliance products. Established in 1992, we have over 30 years of experience in manufacturing. We've made it our mission to uphold the highest quality standards, which is why we strive to be compliant with FDA and EPA regulations and maintain a UL cGMP Certification*. Our diverse product line serves a variety of industries, providing solutions to minimize the risks of cross-contamination and meet safety guidelines, like OSHA and ANSI standards. We are committed to this mission, and we invite you to join us on this journey.

Based in Buffalo, N.Y., we operate three facilities where we oversee every aspect of manufacturing, from concept to product development through distribution. We employ over 120 dedicated professionals in the United States who work tirelessly to manufacture quality products. Whether you're seeking detailed information on our products or need a partner to bring your product to life, we are here to support you every step of the way.

At Safetec, our motto is simple:
One Team, One Goal. Customer Driven.

*Management System Certified by UL with regard to 21 CFR Parts 210/211

WHY CHOOSE SAFETEC?

At Safetec, we don't just manufacture high-quality infection control, first aid, and compliance products—we support you every step of the way. With over 200 SKUs across five diverse product categories in versatile packaging formats, Safetec simplifies your sourcing and streamlines your supply chain, all from one trusted partner. Many of our products are National Brand Equivalents (NBEs), offering the same trusted performance as leading industry brands at a better value, backed by responsive support from our Buffalo-based team.

Three Ways To Stay Protected From Infection

Prevent infection and promote healing with our Single Antibiotic Ointment with Bacitracin, Single Antibiotic Ointment with Neomycin, or the potent Triple Antibiotic Ointment. These ointments effectively combat harmful bacteria, providing a protective layer and aiding in the swift recovery of minor cuts, burns, and scrapes. Their targeted application ensures instant relief, fostering healing while preventing infection and the spread of bacteria.

⚠️ **WARNING:** Cancer - www.P65Warnings.ca.gov/product

Instant Hand Sanitizer

Kills 99.9% of Germs

Safetec's Instant Hand Sanitizer is the ultimate defense against germs, providing efficient protection anywhere. It fights off 99.9% of germs with a 66.5% alcohol content, which meets more than the minimum required percentage to be effective in reducing the number of bacteria on the skin, per the CDC.

OSHA Compliance 1910.1030 – Bloodborne Pathogens Standard

Safetec's Instant Hand Sanitizer meets OSHA Bloodborne Pathogens Standard 1910.1030.

Safetec's Hand Sanitizer contains 66.5% Ethyl Alcohol. If soap and water are not available, the CDC recommends consumers use an alcohol-based hand sanitizer that contains at least 60% ethanol.

Red Z® and Green-Z® Fluid Control Solidifiers

Safetec's Red Z® and Green-Z® solidifiers embody our safety commitment, swiftly containing and solidifying hazardous* spills into a semi-solid (gel) mass. Red Z® handles blood and body fluids, while Green-Z® performs identical functions in addition to chemical spills because there is no chlorine. These solidifiers are user-friendly, eco-conscious, and trusted across industries, and they ensure exceptional performance and regulatory compliance. Available in single & multi-use bottles, single-use pouches, drop-in pacs, and buckets.

- Contains super absorbent polymers (SAPs)
- Eliminates splashing and aerosolization
- Easy-to-use
- Fast-acting
- For potentially infectious blood, body fluid, or chemical spills.***
- Helps comply with DOT regulations†
- Shelf-stable in a cool, dry place**

*Dispose of potentially infectious materials in accordance with all local, state and federal regulations.

*** Careful consideration should be given to chemical spill cleanup, i.e., room size, temperature, quantity and concentration(s) of the solution(s).

†Visit our website for a full list of regulation references.

**Products are shelf-stable and do not require an expiration date. For the product to remain shelf-stable, it must be kept in a cool, dry place and in its original packaging. If contents are hard/compact, shake the product to loosen before use.

42220 is made to order.

*Data is an approximation of values. Blood and urine solidification are based on the industry standard 0.9% NaCl saline solution.

Made In America

Acid Lock Solidifier

Rapidly neutralizes and solidifies low pH spills:
Acetic Acid, Hydrochloric Acid, Nitric Acid, and Sulfuric Acid

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
12001	5 oz.	Shaker Top Bottle	-	24/case	11 lbs.
12003	15 oz.	Shaker Top Bottle	-	12/case	14 lbs.

FSC 1 Formalin Spill Control

Aids in reducing exposure to Formaldehyde Gas by immobilizing formalin and transforming it into an easily removable semi-solid mass. The resulting mass cools rapidly to minimize Formaldehyde off-gassing.

Please Note: Not recommended to be used with 40% formalin or higher.

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
47101	11 oz.	Shaker Top Bottle	-	12/case	11 lbs.

*Looking for a comprehensive solution for Formaldehyde spills?
See page 34 for Safetec's Formaldehyde Spill Response Kit.*

Alky Solidifier

Rapidly neutralizes and solidifies high pH spills:
Ammonium Hydroxide, Sodium Hydroxide, Potassium Hydroxide

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
13001	5 oz.	Shaker Top Bottle	-	24/case	11 lbs.
13003	15 oz.	Shaker Top Bottle	-	12/case	14 lbs.

Speedy Cleanz®

Fluid Absorbent

A more economical alternative to our Red Z® Solidifier. Speedy Cleanz® can be applied to vomit, blood, urine as well as other body fluid spills, transforming the liquid into an odorless, semi-solid mass. The non-slippery formula is perfect for use on floors.

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
41100	16 oz.	Shaker Top Bottle	-	12/case	16 lbs.

*Is your facility prepared for a variety of spills?
See page 35 for the Multi-Purpose Spill Kit and the Spill Leader Kit.*

Petro Lock Solidifier

Rapidly absorbs petroleum-based spills:
Gasoline, Solvents, Crude Oil, and Paint Sludge

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
14101	2 oz.	Shaker Top Bottle	-	24/case	6 lbs.
14103	8 oz.	Shaker Top Bottle	-	12/case	10 lbs.

Zorb Sheets

Blood, Body, & Chemical Fluid Absorbents

Transfer specimens safely and easily using Safetec's Zorb Sheets! These versatile sheets help reduce compliance risks associated with the handling and shipping of diagnostic specimens, infectious substances, hazardous materials and dangerous goods. The tissue-based material allows fluid to immediately activate the superabsorbent polymers to solidify and transform the contents into a semi-solid (gel) mass. Safetec's Zorb Sheets—your reliable choice for safe transportation that helps comply with DOT, CDC, OSHA, IATA, ICAO, USPS, USP <800>, and UN regulations.†

- Available in multiple sizes
- Fast-acting
- Easy-to-use
- Lightweight
- Space saving
- Prevents leaking

S/S Zorb Sheets

Single-Ply with Standard Absorbency

Spill Kits

- EZ-Cleans Plus® Kit* 32
- EZ-Personal Protection Kit 33
- Formaldehyde Spill Kit 34
- Hazardous Drugs Spill Kit 34
- Multi-Purpose Spill Kit 35
- National Standard EZ-Cleans® Kit* 32
- Spill Leader Kit 35
- Universal Precaution Compliance Kit* 33

* Includes SaniZide Pro 1® Surface Disinfectant Wipe, EPA Reg. No. 88494-4-67161, which is an EPA-registered disinfectant manufactured at 887 Kensington Ave, Buffalo, NY 14215. See product label for complete directions for use, claims, contact times, warnings, precautionary statements, first aid, and disposal.

EZ-Cleans Plus® Kit

The EZ-Cleans Plus® Kit is designed for addressing blood and body fluid spills, and provides essential personal protection items. Its focus on encapsulating and containing potentially infectious spills not only ensures a safer cleanup process but also minimizes the risk of employee exposure to infectious waste and cross-contamination. Each component of the kit is disposable for convenience.

This kit includes Red Z® Solidifier, a quick and efficient solution for solidifying blood and body fluids while eliminating odors.

What's included:

- 10 g Red Z® Solidifier
- Instructions
- Pair of Vinyl Gloves
- Paper Towel
- p.a.w.s.® Antimicrobial Hand Wipe
- Red Biohazard Bag (24" x 24")
- SaniZide Pro 1® Wipe
- Scoop/Scraper
- Twist Tie

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
17120	Plastic Bag	1" x 6.19" x 9.75"	24/case	5 lbs.
17121	Plastic Bag	1" x 7" x 10"	24/case	5 lbs.

17120 does not contain a SaniZide Pro 1® wipe.

Blood and Body Fluid Spill Response

Single-Use

National Standard EZ-Cleans® Kit

Specifically tailored for the cleanup of blood and body fluid spills, the National Standard EZ-Cleans® Kit is a cost-effective alternative for workers who do not require full face and body protection. Compact and easy to use, all kit components are disposable.

This kit includes Red Z® Solidifier, a quick and efficient solution for solidifying blood and body fluids while eliminating odors.

What's included:

- 10 g Red Z® Solidifier
- Instructions
- Odor Mask
- Pair of Vinyl Gloves
- p.a.w.s.® Antimicrobial Hand Wipe
- Red Biohazard Bag (24" x 24")
- SaniZide Pro 1® Wipe
- Scoop/Scraper
- 2 Twist Ties
- White Disposal Bag

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
25000	Refill	1" x 7" x 10"	24/case	7 lbs.
25005	Hard Case	2.63" x 6.5" x 8.12"	12/case	10 lbs.
25006	Metal Case	2.5" x 5" x 8"	24/case	44 lbs.

Blood and Body Fluid Spill Response

Single-Use

Universal Precaution Compliance Kit

This kit is crucial due to the health risks associated with bloodborne pathogens like HBV, HCV, and HIV. It adheres to OSHA, CDC, and State Health Department standards, providing the necessary personal protection and cleanup tools. Perfect for a multitude of workplaces, including nursing homes, hospitals, schools, correctional facilities, and any business where job-related contact with blood is a potential risk.

This kit includes Red Z® Solidifier, a quick and efficient solution for solidifying blood and body fluids while eliminating odors.

What's included:

- 10 g Red Z® Solidifier
- Pair of Vinyl Gloves
- Red Biohazard Bag (24" x 24")
- Combo Mask/Safety Shield
- p.a.w.s.® Antimicrobial Hand Wipe
- SaniZide Pro 1" Wipe
- Identification Tag
- Protective Apron
- Scoop/Scraper
- Instructions
- Twist Tie

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
17100	Poly Bag	1" x 6.19" x 9.75"	24/case	6 lbs.
17102	Hard Case	2.63" x 6.5" x 8.12"	12/case	10 lbs.

Blood and Body Fluid Spill Response

Single-Use

EZ-Personal Protection Kit

This fully disposable kit offers comprehensive exposure protection against potentially infectious blood and body fluids. Designed for pandemic and infection control, this kit comprises a well-organized selection of personal protective equipment (PPE) to address potential exposure to infectious materials. Compact and easily storable, this kit can be safely disposed of after use, ensuring the highest safety and hygiene standards.

What's included:

- Combo Mask/Safety Shield
- Pair of Vinyl Gloves
- Red Biohazard Bag (24" x 24")
- Instructions
- p.a.w.s.® Antimicrobial Hand Wipe
- Twist Tie
- Protective Gown

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
17606	Plastic Bag	1" x 6.19" x 9.75"	24/case	10 lbs.

Blood and Body Fluid Spill Response

Single-Use

Formaldehyde Spill Response Kit

A convenient emergency response kit for medical personnel using formalin or other formaldehyde-containing substances. It is ideal for containing small-volume spills.

This kit includes FSC 1, a formalin spill control solidifier that aids in reducing the exposure to formaldehyde gas by immobilizing formalin and transforming it to an easily removable semi-solid mass.

Please Note: Not recommended to be used with 40% formalin or higher.

What's included:

- 4 Clear Disposal Bags (30" x 36")
- Open Back Gown
- 4 Twist Ties
- FSC 1 Spill Control (11 oz. Solidifier)
- Pair of Nitrile Gloves
- Vented Goggles
- Instructions
- Respirator
- 3 Wiper Pads (11" x 11")
- 4 Scoop/Scrapers

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
48625	Poly Bag	11.75" x 11.75" x 4.88"	1/case	4 lbs.
48630	Hard Case	14" x 12.625" x 5.375"	1/case	6 lbs.

Need to stock up on formaldehyde solidifier? See page 28 for FSC 1 Spill Control.

Chemical Spill Response

Single-Use

Hazardous Drugs Spill Kit

In environments where meticulous precautions are paramount like compounding pharmacies and healthcare facilities handling Hazardous Drugs (HDs), such as cytotoxic drugs, Safetec's Hazardous Drugs Spill Kit serves as the primary defense against unexpected spills and exposures.

Any facility that handles HDs must have USP <800> compliant spill kits on-site. This requirement is part of USP General Chapter 800 and is an effort to protect workers and patients in the event of accidental spills of HDs.

What's included:

- 21 g Green-Z® Fluid Solidifier
- Instruction Card
- 2 pairs of USP <800> Compliant Nitrile Gloves
- Caution Sign
- Scoop/Scraper
- 2 Wiper Pads (11" x 11")
- Full-Face Safety Shield
- Shoe Covers, Non-Slip
- Yellow Waste Bag (20" x 13" x 39")
- Identification Tag
- Twist Tie
- USP <800> Compliant Gown

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
49725	Plastic Bag	2" x 8" x 14"	12/case	11 lbs.

Chemical Spill Response

Single-Use

Universal Spill Response

Multi-Use

Multi-Purpose Spill Kit

This comprehensive kit is your go-to solution for quick and efficient response to a variety of spills. Whether it's chemicals, body fluids, or other hazardous substances, this kit equips you with the essential tools for safe spill cleanup. Compact and easily accessible, it's ideal for a range of environments, from laboratories to workplaces.

Meets requirements for compliance with DOT 1713 hazardous discharge; EPA 623.30 immediate action and 263.31 discharge cleanup.

What's included:

- Acid Lock Solidifier (15 oz. Bottle)
- Alky Solidifier (15 oz. Bottle)
- Caution Tape Roll
- 3 Clear Disposal Bags (30" x 37")
- D.O.T. Incident Report Tag
- Drop Cloth
- Green-Z® Solidifier (15 oz. Bottle)
- Instructions
- Pair of Nitrile Gloves
- Petro Lock Absorbent (8 oz. Solidifier)
- Respirator
- 3 Scoop/Scrapers
- 3 Twist Ties
- Vented Goggles
- Zammie® Sewer Stopper (15" x 21")

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
15201	Hard Case	12" x 17.75" x 4.25"	1/case	11 lbs.

Need to refill your solidifiers?
See page 23 for all Spill Control products.

Spill Leader Kit

This wall-mounted spill kit is designed for emergency response and hazardous lab spills. The solid solutions neutralize, stabilize, and solidify a variety of aqueous spills wherever they occur.

Meets requirements for compliance with DOT 1713 hazardous discharge; EPA 623.30 immediate action and 263.31 discharge cleanup.

What's included:

- Acid Lock Solidifier (5 oz. Bottle)
- Adhesive Wall Mount
- Alky Solidifier (5 oz. Bottle)
- D.O.T. Incident Report Tag
- Green-Z® Solidifier (5 oz. Bottle)
- 2 Hazardous Waste D.O.T. Labels
- 3 pairs of Nitrile Gloves
- 2 Non-Hazardous Waste D.O.T. Labels
- Petro Lock Absorbent (2 oz. Solidifier)
- Red Z® Solidifier (5 oz. Bottle)
- 6 Scoop/Scrapers
- 6 Zip Lock Bags (9" x 12")

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
15205	Wall-Mount	14.125" x 3.125" x 20.5"	1/case	5 lbs.

Need to refill your solidifiers?
See page 23 for all Spill Control products.

SaniZide Pro 1® Surface Disinfectant

1-Minute Surface Disinfectant Spray & Wipes

SaniZide Pro 1® is a broad-spectrum, EPA-registered surface disinfectant that combines cleaning and disinfecting in one simple step with its ready-to-use, alcohol-based, hospital-grade formula. SaniZide Pro 1® makes disinfecting even easier by reducing the risk of cross-contamination with true, one-minute kill claims that are effective against 48 microorganisms and safe for repeated use on hard, non-porous surfaces.

**Effective against MRSA, VRE, Tuberculosis,
Influenza, Poliovirus, Norovirus, Monkeypox,
SARS-CoV-2, & Hantavirus**

Ideal for use in:

- Ambulances
- Ambulatory Surgical Centers
- Animal Care Facilities
- Bathrooms
- High Touch Surfaces
- Hospitals
- Laboratories
- Medical or Dental Offices
- Nursing Homes
- Office Buildings
- Other Healthcare Related Institutions
- Public Spaces
- Salons
- Veterinary Offices

⚠ WARNING: SaniZide Pro 1® contains Ethanol (CAS 64-17-5) as a disinfectant, which in California is considered to be carcinogenic to humans when ingested in the form of an alcoholic beverage [IARC 1]. SaniZide Pro 1® also contains the following ingredients which do not appear on any listing of chemicals of concern as designated by the State of California or the European Union: Purified Water (CAS 7732-18-5) as a diluent, Propylene Glycol (CAS 57-55-6) as a solvent, Citric Acid (CAS 77-92-9) as a pH adjuster, Decyl Glucoside (CAS 68515-73-1) as a surfactant, Didecylidimonium Chloride (CAS 7173-51-5) as a disinfectant, Lauryl Glucoside (CAS 110615-47-9) as a surfactant.

SaniZide Plus[®] Germicidal Solution

Kills 99% of Bacteria*

SaniZide Plus[®] is a one-step[†] germicidal cleaner and deodorant designed for general cleaning, disinfecting and controlling non-pathogenic mold and mildew on hard, non-porous inanimate surfaces. Quickly removes dirt, grime, non-pathogenic mold and mildew, food residue, blood and other organic matter commonly found in health care facilities. It also eliminates odors leaving hard non-porous surfaces smelling clean and fresh. Use where odors are a problem. This product is effective against 48 microorganisms on hard, non-porous surfaces.

[†] "One Step" disinfectant claim is limited to association with non-food contact surface use.

* when used according to disinfection directions

USP <800> is a guideline created by the United States Pharmacopeia Convention (USP) for handling Hazardous Drugs (HDs) in the healthcare setting. USP <800> only applies to handling Hazardous Drugs (HDs) where there is a risk of exposure to patients, healthcare workers, and the environment. Any drug identified as hazardous or potentially hazardous by the National Institute for Occupational Safety and Health (NIOSH) is considered a Hazardous Drug.

Surface Safe®

Surface Safe® is engineered to decontaminate and deactivate surfaces by eliminating Hazardous Drug (HD) residue effectively. Extensive testing data confirms that Surface Safe® efficiently eradicates eight of the most prevalent Hazardous Drugs from inert surfaces, with the capacity to treat approximately 2 square feet per application.

Surface Safe®'s dual-step application process ensures thorough decontamination:

- **Packet #1:** This packet is used for cleaning the contaminated surface. It contains a towelette in a 2% Sodium Hypochlorite Soap Solution which is a high potency bleach.
- **Packet #2:** This packet is for neutralizing the solution in Packet #1. It contains a towelette in 1% Sodium Thiosulfate with 0.9% Benzyl Alcohol which works as a bleach inactivating agent.
