RE: Safetec Amazon Brand Registry Policy

As part of Safetec's marketplace governance policy, Brand Registry permissions, roles, or administrative access are maintained exclusively by our internal team. We do not grant Brand Registry access to external companies or reseller accounts.

Maintaining centralized control allows us to ensure brand integrity, regulatory compliance, listing accuracy, intellectual property protection, and a consistent customer experience across all sales channels.

We value our business relationships and remain happy to support our partners through approved channels. If you require assistance with product information, content updates, assets, or marketplace-related documentation, please feel free to share your request and our team will review it promptly.

Thank you for your understanding and continued partnership.
