SaniWash® Antimicrobial Hand Wash

Formulated with PCMX

Safetec's SaniWash® Hand Soap is your essential choice for hand hygiene, designed to meet or exceed APIC, CDC, & OSHA standards for hand washing. Our hand soap is enriched with 0.6% PCMX, an antimicrobial ingredient effective against a broad range of microorganisms, including bacteria, fungi, and some viruses. This formulation helps reduce the risk of infections, making it more powerful than national brand antibacterial soaps.

Bacteria

Virus

Fungi

Our 16 oz. tabletop pump bottle provides convenient ready-to-use dispensing, while the gallon sized option with a pump is also available as a cost-effective volume choice for maintaining hand hygiene in large and busy environments or can be used as a refill.

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
34452	16 oz.	Pump Bottle	-	12/case	16 lbs.
34455	1 Gallon	Pump Bottle	-	4/case	37 lbs.

How Much Soap Will You Need?

The average person uses the bathroom 6-7 times a day*, using two pumps or 0.7 mL of soap with every hand washing.

Does your facility have enough supply to meet your demand?

- **25 - 50 employees:**
Up to 134 16 oz. Pump Bottles per year
