

How much surface disinfectant does your facility need?

- Ready to Use
- Odor Eliminating
- No Bleach

To keep your workplace safe, all contact surfaces should be disinfected regularly, including:

- Individual workspaces between each shift.
- Common area contact surfaces between each use, including but not limited to:
 - Door handles
 - Desks
 - Elevator buttons
 - Computers
 - Sign-in areas
 - Headsets
 - Lunchroom tables*
 - Stair Railings
 - Bathrooms
 - Telephones

All calculations are estimates based on kill claims for SaniZide Pro 1® which has a 1-minute contact time.

- There are 0.0125 oz. in 1 spray of SaniZide Pro 1®
- Each SaniZide Pro 1® bottle has 32 oz.

Item#	Description	Case Qty.	Case Wt.
35910	SaniZide Pro 1® Spray (32 oz.)	6/case	14 lbs.

EPA Reg. No. 88494-3-67161

With this information we can gather:

High Touch Surface Areas	Number of Sprays	Ounces of SaniZide Pro 1®
Doorknob	2	0.025
Work Desk	10	0.125
Large Conference Room Table	15	0.1875
Light Switches	1	0.0125
Elevator Buttons	2	0.025
Non-Food Contact Kitchen Surfaces	10	0.125
Bathroom Surfaces	20	0.25
Sign-in Areas / Desks	10	0.125

This information is based on the amount of product needed in a year, based on 260 work days a year.

Surface Areas	# of Disinfections a Day (Once a Day or After Every Use)	# of Ounces	# of Bottle of SaniZide Pro 1®
Large Conference Room Table	5	244	8
Sign-in Areas	5	163	5
100 Light Switches	1	325	10
100 Door Knobs	2	1,350	40
2 Elevators	100	1,250	39
Unshared Work Desk	1	32.5	1
20 UnShared Work Desks	1	650	20
50 Unshared Work Desks	1	1,625	51

Amount of product needed to keep the surface wet for a full minute varies by climate. Number of sprays are approximate and may vary due to the size of your workspaces and surfaces. The amount of disinfecting necessary will vary by building structure, and daily office activities. Always follow the directions on the label of your surface disinfectant.

*NOT recommended for surfaces used for the processing, preparation, or serving of food.
