Adhesive Skin Barrier | Available in: Wipe Carton Bottle

SkinTac "H"® Liquid Adhesive & Skin Tac® Wipe

Adhesive Barrier Solution

Help keep wearable medical devices securely in place with Torbot® SkinTac® Adhesive Barrier. Available in convenient wipes and economical liquid formats, SkinTac® creates a tacky protective barrier that helps improve the adhesion of continuous glucose monitors (CGMs), insulin pump infusion sets, cardiac monitoring devices, ostomy appliances, wound dressings, and other adhesive medical devices. The latex-free formula applies easily and dries to leave a tacky resin layer that helps support secure device placement.

Recommended Companion Product:

Torbot® TacAway® Adhesive Remover

Apply with SkinTac®. Remove with TacAway®. Reapply with confidence.

Ideal for use in:

- Advanced Wound Care Dressings
- Cardiac Monitoring Devices
- Continuous Glucose Monitors (CGMs)
- Insulin Pump Infusion Sets
- Medical Tape
- Ostomy Appliances
- Wearable Medical Sensors
- Wound VAC Dressings
