Skin-Tac "H"[®] Liquid Adhesive & Skin Tac[®] Wipe

Adhesive Barrier Solution

Trusted with securing tapes, dressings, ostomy appliances, infusion sets and more, Torbot's Skin-Tac "H"[®] Liquid Adhesive and Skin Tac[®] Wipe are economical solutions that improve adhesion while remaining gentle on skin. Their hypoallergenic, latex-free formula creates a tacky, clear base that helps secure any adhesives in place on all skin types, without the use of benzoin. They guard against skin tearing and inflammation, and are easily removable with TacAway[®] (adhesive remover).

Available in 4 oz. and 8 oz. bottles or 50 ct. cartons of individually packaged wipes, Skin-Tac "H"[®] and Skin Tac[®] offer flexibility for every setting—from clinical environments to on-the-go. The bottles include an easy-to-use applicator dauber cap.

Ideal for use in:

- Compression Stockings
- Continuous Glucose Monitors
- Dressings
- Insulin Pumps/Infusion Sets
- Laryngectomy Voice Protheses
- Ostomy Appliances
- Other Medical Adhesives
- Tape
