Torbot® Medical Brushes

Keep medical tubing and specialty instruments clean with Torbot® United Contour Brushes. Designed specifically for healthcare environments, these reusable, autoclavable brushes are available in a variety of sizes and configurations to support the cleaning of tracheal tubes, endotracheal tubes, catheters, and other medical tubing.

Constructed with durable stainless-steel wire and flexible nylon bristles, United Contour Brushes are built for repeated use and dependable performance. Available individually or in convenient brush sets, they allow hospitals, VA medical centers, respiratory departments, and Central Sterile Processing (SPD) teams to select the appropriate brush for their specific cleaning application. Whether used in routine instrument maintenance or respiratory care, Torbot® United Contour Brushes provide a reliable, instrument-specific cleaning solution in sizes clinicians need.

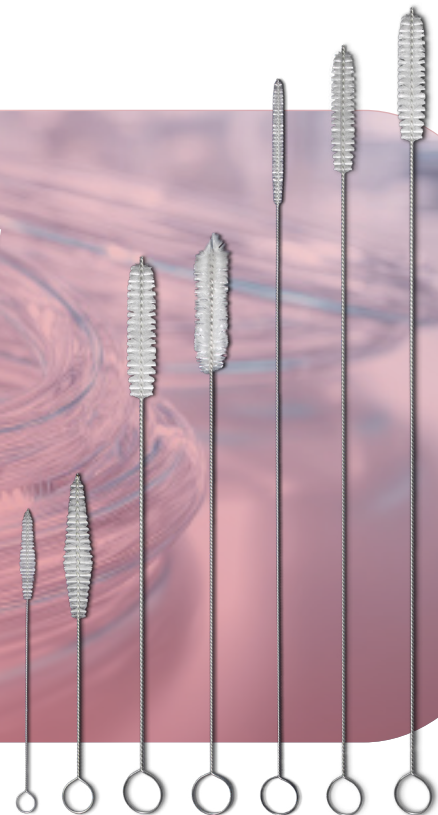

Ideal for use with:

- Catheters
- Endotracheal Tubes
- General Instrument Cleaning
- Hospital
- Medical Tubing
- Specialty Medical Instruments
- Tracheal Tube Cleaning
