

Torbot® Ostomy Scissors

Customize ostomy barriers with confidence using Torbot® Curved Blunt Ostomy Scissors. Designed specifically for ostomy care, these reusable stainless-steel scissors feature curved blades that make it easier to create smooth, rounded openings for a customized fit around the stoma. Blunt safety tips help reduce the risk of accidentally puncturing or damaging the pouch or barrier during trimming.

Durable and designed for repeated use, Torbot® Curved Blunt Ostomy Scissors provide the precision and control needed for accurate barrier customization in clinical, home healthcare, and personal ostomy care settings.

Ideal for use in:

- Customized Wafer Fitting
- Home Healthcare
- Hospitals
- Ostomy Appliance Preparation
- Trimming Ostomy Barriers
- Wound Dressing Preparation
