For decades, Torbot® has been a trusted name in ostomy and medical care, delivering reliable products that healthcare professionals, distributors, and patients depend on.

Now as Torbot®, a division of Safetec®, select Torbot® product lines continue to be backed by Safetec's commitment to quality, manufacturing excellence, and responsive customer support.

Our goal is to provide a seamless transition while continuing to deliver the trusted products and service our customers have relied on for generations.

Safetec® of America Inc.

Hello! Welcome to Safetec,

where we take pride in offering top-quality infection control, first aid, over-the-counter (OTC), and compliance products. Established in 1992, we have over 30 years of experience in manufacturing. We've made it our mission to uphold the highest quality standards, which is why we strive to be compliant with FDA and EPA regulations and maintain a UL cGMP Certification*. Our diverse product line serves a variety of industries, providing solutions to minimize the risks of cross-contamination and meet safety guidelines, like OSHA and ANSI standards. We are committed to this mission, and we invite you to join us on this journey.

Based in Buffalo, N.Y., we operate three facilities where we oversee every aspect of manufacturing, from concept to product development through distribution. We employ over 120 dedicated professionals in the United States who work tirelessly to manufacture quality products. Whether you're seeking detailed information on our products or need a partner to bring your product to life, we are here to support you every step of the way.

At Safetec, our motto is simple:
One Team, One Goal. Customer Driven.

**Management System Certified by UL with regard to 21 CFR Parts 210/211*

Adhesive Skin Barriers

Bonding Cement..... 5
Skin Tac® "H" Liquid & Skin Tac® Wipe 4
Tincture of Benzoin.....5

Skin-Tac® "H" Liquid Adhesive & Skin Tac® Wipe

Adhesive Barrier Solution

Help improve the adhesion of wearable medical devices and other adhesive medical products with Torbot® Skin Tac® Adhesive Barrier. The latex-free formula creates a tacky protective layer on the skin that helps support secure device placement for continuous glucose monitors (CGMs), insulin pump infusion sets, cardiac monitoring devices, ostomy appliances, wound dressings, and medical tape. Ideal for use at home, in clinical settings, or on-the-go.

Ideal for use in:

- Advanced Wound Care Dressings
- Cardiac Monitoring Devices
- Continuous Glucose Monitors (CGMS)
- Insulin Pump Infusion Sets
- Medical Tape
- Ostomy Appliances
- Wearable Medical Sensors
- Wound VAC Dressings

Bonding Cement

Natural Rubber Latex Adhesive

Create a strong, dependable bond between two surfaces with Torbot® Bonding Cement. This natural rubber latex adhesive is designed for specialty applications where secure attachment is required, including prosthetics, ostomy appliances, specialty medical devices, veterinary applications, and other specialty uses. Trusted for decades across multiple specialty markets, Bonding Cement provides dependable adhesion.

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
TT410	4 oz.	Brush Top Can	-	12/case	4 lbs.
TT413	16 oz.	Refill	-	6/case	7 lbs.

Tincture of Benzoin

Adhesive Skin Barrier / First Aid & Skin Protectant

Protect and prepare the skin with Torbot® Tincture of Benzoin. This traditional, fast-drying skin protectant helps support first aid, dressing preparation, medical tape application, and veterinary post-procedure care. Trusted for decades, it remains a versatile solution for healthcare professionals and caregivers.

Adhesive Removers

TacAway® Wipe 8

TacAway®

Adhesive Remover Wipe

Remove adhesive residue while leaving skin clean, dry, and ready for the next application with Torbot® TacAway® Adhesive Remover Wipes. Designed for medical adhesive removal, TacAway® helps dissolve residue from tapes, dressings, continuous glucose monitors (CGMs), insulin pump infusion sets, ostomy appliances, and other adhesive medical devices. Its non-greasy formula helps reduce adhesive-related skin trauma while leaving no oily film behind, helping prepare the skin for the next medical adhesive application.

Ideal for use in:

- Cardiac Monitors
- Continuous Glucose Monitors (CGMs)
- Insulin Pump Infusion Sets
- Medical Tape
- Ostomy Appliances
- Other Adhesive Medical Devices
- Wound Dressings

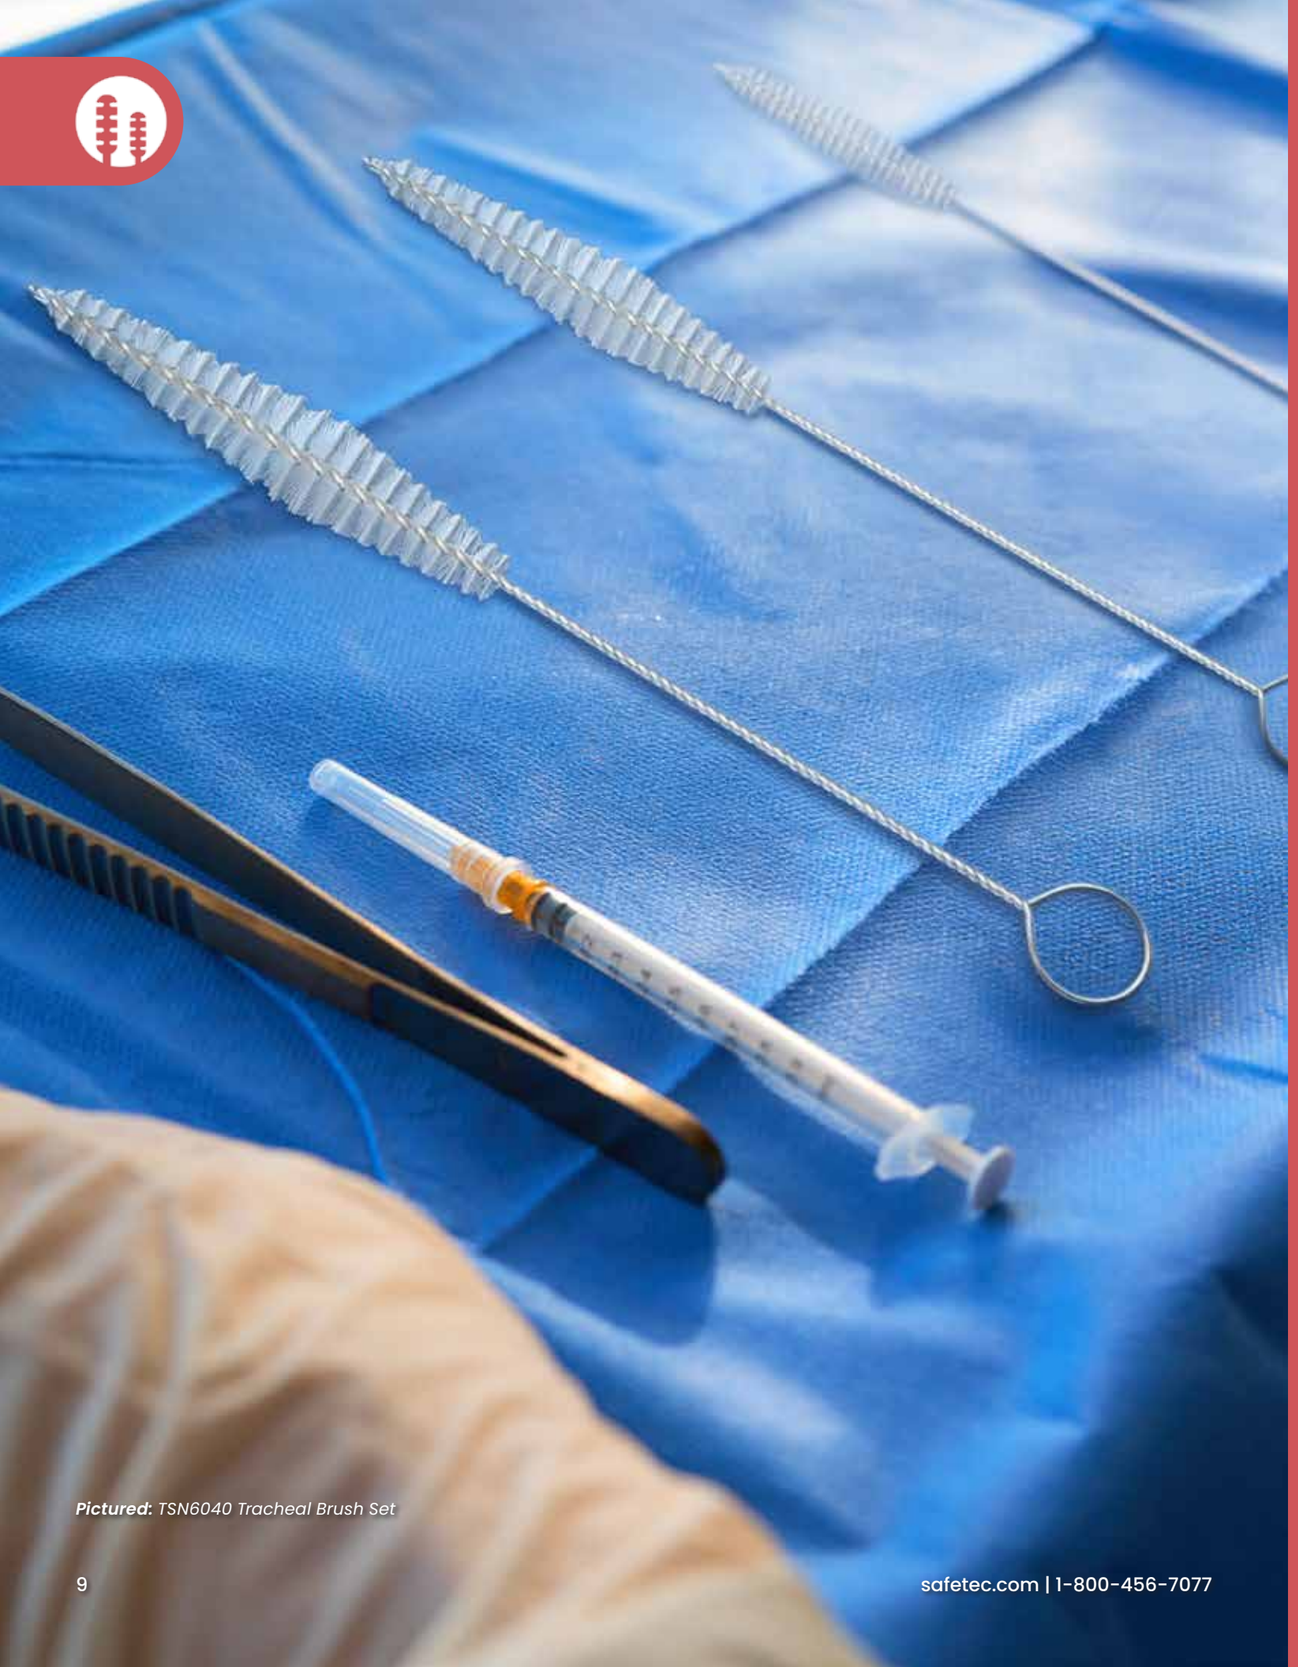

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
MS408W	1.10" x 5"	Individual Wipe	50 ct.	20/case	8 lbs.

Recommended Companion Product:

Skin Tac® Adhesive Barrier Wipe & Skin-Tac® "H" Liquid Adhesive

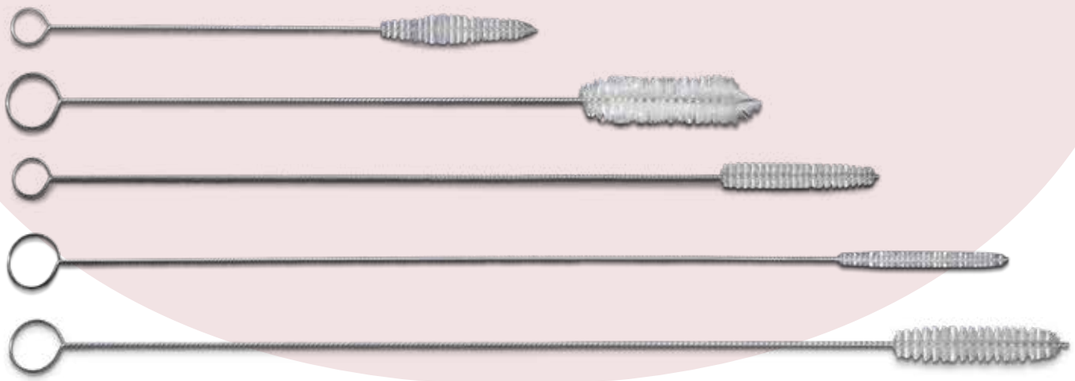

Apply with Skin Tac®. Remove with TacAway®. Reapply with confidence.

Drainage

Continent Catheters 14

Urinary Night Drainage Kit 14

Urinary Night Drainage Kit

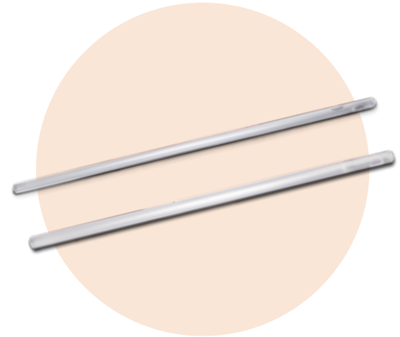

Support convenient overnight urinary collection with the Torbot® Urinary Night Drainage Kit. The complete kit includes a wide-base collection bottle, 5-foot drainage hose with connector, and one bottle of T3 Odor Eliminator. Designed with a lower center of gravity to help reduce tipping, it provides stable bedside urine collection for patients with continuous urinary drainage needs.

Order No.	Material	Capacity	Case Qty.	Case Wt.
TSN4326	Plastic Container	5 Gallons	4/case	3 lbs.

Continent Catheters

Support dependable drainage with Torbot® Continent Catheters, designed for patients with internal continent reservoirs created through continent ostomy and continent urostomy procedures. These flexible straight-tip catheters support routine intermittent catheterization while accommodating different drainage needs and surgical procedures. The soft, straight-tip design provides a comfortable alternative to rigid bullet-tip catheters, helping support everyday patient care.

Miscellaneous

Ostomy Scissors 16

Ostomy Scissors

Customize ostomy appliances with confidence using Torbot® Ostomy Scissors. Designed specifically for ostomy care, these reusable stainless-steel scissors feature curved blades that make it easier to create smooth, rounded openings for a customized fit around the stoma. Blunt safety tips help reduce the risk of accidentally puncturing or damaging the pouch or barrier during trimming. Durable and designed for repeated use, they provide the precision and control needed for accurate barrier customization in clinical, home healthcare, and personal ostomy care settings.

Ideal for use in:

- Customized Wafer Fitting
- Home Healthcare
- Hospitals
- Ostomy Appliance Preparation
- Trimming Ostomy Barriers
- Wound Dressing Preparation
