Triple Antibiotic Ointment

Stay Protected From Infection

Stay protected from infections with Triple Antibiotic Ointment, a potent blend containing Bacitracin Zinc, Neomycin Sulfate, and Polymyxin-B Sulfate. This powerful combination serves as a defense against harmful bacteria, preventing infection and promoting swift recovery from minor skin injuries, such as cuts, scrapes, and burns.

Our Triple Antibiotic Ointment meets the American National Standard (ANSI) minimum requirements for workplace first aid kits and supplies (Z308.1-2021 - Section 6.4: Antibiotic Application). Designed to be a National Brand Equivalent (NBE), it matches the quality, performance, and effectiveness of the most recognized national brands.

Available in convenient single-use pouches, packaged in bulk, 25 ct., and 144 ct. cartons or 1 oz. tubes, our Triple Antibiotic Ointment ensures easy application and provides on-the-spot relief. The bulk and carton options are ideal for kit packers or refilling first-aid.

Order No.	Size	Product Type	Carton	Case Qty.	Case Wt.
