

Universal Precaution Compliance Kit

Protection from blood and body fluids

When safety from bloodborne pathogens is a top priority, the Universal Precaution Compliance Kit is a reliable solution. It adheres to OSHA, CDC, and State Health Department standards, providing the necessary personal protection and cleanup tools.

This kit is crucial due to the health risks associated with bloodborne pathogens like HBV, HCV, and HIV. Perfect for a multitude of workplaces, including nursing homes, hospitals, schools, school buses, correctional facilities, laboratories, doctor's offices, airlines, law enforcement, hotels, and any business where job-related contact with blood is a potential risk.
