

Blood and Body Fluid Spill Response

Chemical Spill Response

YOUR COMPLETE LINE OF SPILL KITS

For potentially infectious blood/body
fluid waste or chemical spills.***

Be Prepared for Any Spill, Anywhere, Anytime

Safetec offers several types of spill kits tailored for a variety of spill responses, such as blood and body fluids, formaldehyde, or even hazardous drugs that fall under USP <800> standards. By offering specialized kits to fit different situations, we can help many different types of workplaces stay compliant with OSHA and other standards while mitigating risks for employees associated with cleaning up spills. Safetec's spill kits provide swift and comprehensive spill control cleanup and are easy to use, allowing responders to address spills efficiently and safely.

Ideal for use in:

- Correctional Facilities
- Emergency Responders
- Funeral Homes
- Healthcare Facilities
- Laboratories
- Nursing Homes
- Police & Fire Departments
- Schools
- Transportation

Available Spill Response Kits

- Hazardous Drugs Spill Kit
- EZ-Cleans Plus® Kit
- EZ-Personal Protection Kit
- Formaldehyde Spill Response Kit
- Multi-Purpose Spill Kit
- National Standard EZ-Cleans® Kit
- Spill Leader Kit
- Universal Precaution Compliance Kit

*** Careful consideration should be given to chemical spill cleanup, i.e., room size, temperature, quantity and concentration(s) of the solution(s).

A collection of personal protective equipment (PPE) and spill response supplies. In the center is a blue full-body protective gown. To its left is a blue surgical mask and a pair of blue nitrile gloves. To the right of the gown are two spill kits: one labeled 'BIOHAZARD' and another labeled 'CAUTION! HAZARDOUS DRUG SPILL'. There are also several bottles of disinfectant and other cleaning supplies. The items are arranged in front of a large, light blue circle.
