SECTION 4. FIRST-AID MEASURES

Description of first aid measures

Ingestion : None required when used as intended. In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Inhalation : None required when used as intended. In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Skin contact : None required when used as intended. In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Eye contact : None required when used as intended. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Most important symptoms and effects, both acute and delayed

: None expected, when used as intended.

Indication of any immediate medical attention and special treatment needed

: Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Extinguishing media

Suitable extinguishing media

: Zorb Sheets does not pose a fire hazard, however normal fires can be extinguished using water mist, CO2, or Dry Chemical (AB, BC, ABC) extinguishers.

Unsuitable extinguishing media

: Do not use a solid water stream as it may scatter and spread fire.

Special hazards arising from the substance or mixture / Conditions of flammability

: Although Zorb Sheets poses not fire-related hazards, a self-contained breathing apparatus is recommended to limit exposure to combustion products when fighting any fire.

Flammability classification (OSHA 29 CFR 1910.106)

: Not flammable.

Hazardous combustion products

: Carbon oxides

Special protective equipment and precautions for firefighters

Protective equipment for fire-fighters

: Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Special fire-fighting procedures

: Fight fires from a safe distance. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. Move containers from fire area if safe to do so. Water spray may be useful in cooling equipment exposed to heat and flame.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

: None required under normal conditions.

Environmental precautions

: Avoid release to the environment.

Methods and material for containment and cleaning up

: Sweep up or vacuum up spillage and collect in suitable container for disposal.

Special spill response procedures

: If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8802). US CERCLA Reportable quantity (RQ): See section 15.
