## We Manufacture Trusted Brand Alternatives

At Safetec of America, we don't just manufacture in the USA — we formulate, test, and package everything right here in our Buffalo-based facilities. Our in-house chemistry, quality, and product development teams work diligently to ensure our products meet or exceed the performance of National Brand Equivalents (NBEs), giving you a competitive edge without the national brand price tag. Plus, many of our products are available for private labeling, making it easy to deliver trusted, American-made quality under your brand.
